

**Subject: [Veterinary Sciences] Invitation to Contribute to Special Issue "Advances in Feline Internal Medicine"**

Dear Colleague,

We are writing to you because we are editing a special issue of *Veterinary Sciences*, entitled "**Advances in Feline Internal Medicine**".

This Special Issue will publish high quality scientific original articles, brief communications, case reports, and reviews on specialized branches of feline internal medicine, such as endocrinology, cardiology, urology, nephrology, pneumology, gastroenterology, infectious and parasitic diseases, oncology, clinical nutrition, and behavioral medicine. Furthermore, we would be glad to reserve a special attention to feline geriatric medicine as well.

Based on your expertise in this field, we feel that a contribution on the topic from you would be of great relevance to the success of this initiative. Hence, we are writing to inquire whether you would consider contributing a paper to this special issue. If you plan to submit an original research article or review article, please provide us a title and a brief description at your earliest convenience.

As an Open Access, the journal guarantees high visibility and short processing time. To date, Veterinary Sciences has published more than 500 articles, covering a variety of article types (article/review/case report). The average processing time was 38 days in 2020; also, we will provide free English editing after the acceptance of your paper. Veterinary Sciences (ISSN 2306-7381, <https://www.mdpi.com/journal/vetsci>) has been accepted for inclusion in Science Citation Index Expanded (SCIE) in the Web of Science Core Collection. And will receive its First Impact Factor in June 2021 (JCR - Clarivate Analytics). CiteScore 2019 (Scopus data): 2.2, which equals rank 35/178 in the 'General Veterinary' category.

**The Article Processing Charges (APC) for accepted papers are CHF 1600.**

For information about this Special Issue, please click the link below:

[https://www.mdpi.com/journal/vetsci/special\\_issues/Feline\\_Medicine](https://www.mdpi.com/journal/vetsci/special_issues/Feline_Medicine)

For information on manuscript preparation and related matters, please see the instructions for authors:

<https://www.mdpi.com/journal/vetsci/instructions>

Although the deadline for submission of manuscripts to the Special Issue is **31 July 2022**, I would appreciate hearing from you in the next few weeks whether you would be willing to submit a contribution.

Please ask if you have any questions (Briana, a colleague who works for Veterinary Sciences is cc'd too "briana.yang@mdpi.com") or ideas you'd like to discuss.

With best wishes,

Andrea, Francesca and Paolo
